Canadian Industry Report of Fisheries and Aquatic Sciences No. 136

Canadian Industry Report of Fisheries and Aquatic Sciences

These reports contain the results of research and development that are useful to industry for either immediate or future application. Industry Reports are directed primarily towards individuals in the primary and secondary sectors of the fishing and marine industries. No restriction is placed on subject matter and the series reflects the board interests and policies of the Department of Fisheries and Oceans, namely, fisheries management, technology and development, ocean sciences, and aquatic environments relevent to Canada.

Industry Reports may be cited as full publications. The correct citation appears above the abstract of each report. Each report will be abstracted in *Aquatic Sciences and Fisheries Abstracts* and will be indexed annually in the Department's index to scientific and technical publications.

Numbers 1-91 in this series were issued as Project Reports of the Industrial Development Branch, Technical Reports of the Industrial Development Branch, and Technical Reports of the Fisherman's Service Branch. Numbers 92-110 were issued as Department of Fisheries and the Environment, Fisheries and Marine Service Industry Reports. The current series name was changed with report number 111.

Details on the availability of Industry Reports in hard copy may be obtained from the issuing establishment on the front cover.

Rapport canadien à l'industrie sur les sciences halieutiques et aquatiques

Ces rapports contiennent les résultats des recherches et des progrès qui peuvent être utiles à l'industrie pour des applications soit immédiates, soit futures. Ils sont préparés à l'intention principalement des membres des secteurs primaire et secondaire de l'industrie des pêches et de la mer. Il n'y a aucune restriction quant au sujet; de fait, la série reflète la vaste gamme des intérêts et des politiques du Ministère des Pêches et des Océans, notamment gestion des pêches, techniques et développement, sciences océaniques et environnements aquatiques, au Canada.

Les Rapports destinés à l'industrie peuvent être considérés comme des publications complètes. Le titre exact paraît au haut du résumé de chaque rapport, qui sera publié dans la revue *Aquatic Sciences and Fisheries Abstracts* et qui figurera dans l'index annuel des publications scientifiques et techniques du Ministère.

Les numéros de 1 à 91 de cette série ont été publiés à titre de rapports sur les travaux de la Direction du développement industriel, de rapports techniques de la Direction du développement industriel, et de rapports techniques de la Direction des services aux pêcheurs. Les numéros 92 à 110 ont été publiés à titre de Rapports à l'industrie du Service des pêches et de la mer, Ministère des Pêches et de l'Environnement. Le nom de la série a été changé à partir du rapport numéro 111.

La page couverture porte le nom de l'établissement auteur où l'on peut se procurer les rapports sous couverture cartonnée.

ABSTRACT

Le Roy, P. 1983. Author, title and subject index to the Canadian industry reports of fisheries and aquatic sciences and preceding reports (1966-1982). Can. Ind. Rep. Fish. Aquat. Sci. 136: iv & 45 p.

This report is an author, title and subject index to reports issued by the Industrial Development Branch of the Department of Fisheries and Oceans in the series, Canadian Industry Report of Fisheries and Aquatic Sciences and its variously named predecessors. The number following each entry refers to the report number. A numerical list of the reports is included. The subject terms are based upon those of FAO fisheries circular. 344, Thesaurus of terms for aquatic sciences and fisheries.
Key words: reports, fishery technology, Canada, bibliographies, Canadian industry report of fisheries and aquatic sciences

RESUMÉ

Le Roy, P. 1983. Author, title and subject index to the Canadian Industry Reports of Fisheries and Aquatic Sciences and preceding reports (1966-1982). Can. Ind. Rep. Fish. Aquat. Sci. 136: iv & 45 p.

Le présent rapport contient un index par titre, auteur et sujet des rapports publiés par la Direction de l'expansion industrielle du ministère des Pêches et des Océans dans la série des Rapports canadiens à l'industrie sur les sciences halieutiques et aquatiques et dans ses prédécesseurs, désignés de diverses façons. Le nombre qui suit chaque entrée est le numéro du rapport. Est également incluse une list numérique de ces rapports. Les termes sont ceux contenus dans le Thesaurus of terms for aquatic sciences and fisheries, FAO Fisheries Circular no 344.
mot-clés: rapports, Canada, bibliographies, technologies des pêches, Rapports canadiens a l'industrie sur les sciences halieutiques et aquatiques

NUMERICAL LIST OF REPORTS

Project report - Canada. Department of Fisheries. Industrial Development Service.

1 Hayashi, I. 1966. Experimental operation of Japanese type cod traps in Newfoundland. 33 p.

2 MacFarlane, C.I. 1968. A report on some aspects of the seaweed industry in the Maritime Provinces of Canada. 23 p.

3 Eales, J.G. 1966. A survey of eel fishing in the Maritime Provinces. 57 p.

4 Deveau, L.E., McAllister, H. 1967. A report on the development of a queen crab fishery in the Maritime Provinces of Canda. 42 p.

5 Scaplen, R.P. 1967. Observations on the operation of the whale catcher KYO MARU #17 off Newfoundland. 43 p.

6 McAllister, H. 1967. Processing and handling of Atlantic queen crab. 14 p.

7 Crabbe, L.J. 1967. Report of a tour of selected fisheries training institutes and related establishments in the U.S.S.R., Norway and the U.K. 69 p.
